

Gender-Based Cancer Risk Dashboard [Development vs. Mortality by Cancer Type]

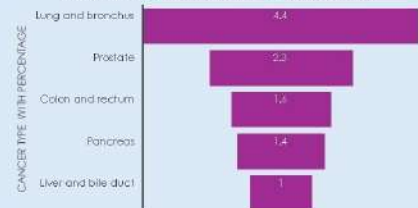

Top 5 Cancers with Highest Development Risk (Male)

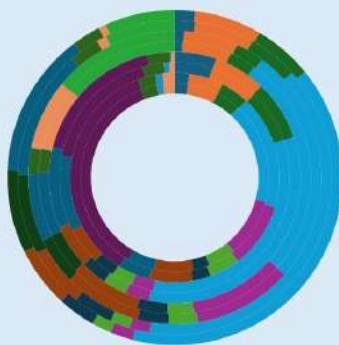

Top 5 Cancers with Highest Development Risk (Female)

Top 5 Cancers with Highest Mortality Risk (Male)

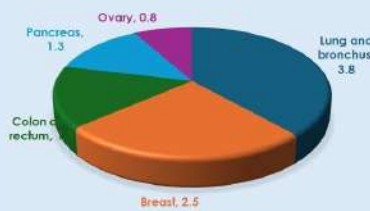

Cancer Type Distribution by Risk Categories

- Esophagus
- Leukemia
- Liver and bile duct
- Lung and bronchus
- Melanoma of the skin
- Mouth and Throat
- Multiple myeloma
- Non-Hodgkin lymphoma
- Ovary
- Pancreas
- Prostate
- Stomach
- Testicles
- Thyroid
- Uterus

CHATOP 5 CANCERS WITH HIGHEST MORTALITY RISK (FEMALE) WITH PERCENTAGES

Cancer Type

Any cancer

Bladder

Brain and nervous system

Breast

Cervix

Colon and rectum

Esophagus

Hodgkin lymphoma

Kidney and renal pelvis

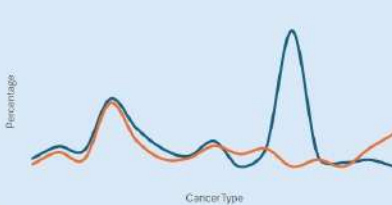

Larynx (voice box)

Leukemia

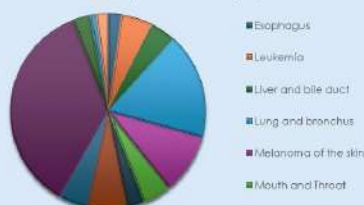

Liver and bile duct

Lung and bronchus
